## Idea 1: Security labels for bus tickets

### Description:

These small labels are used on monthly transport tickets in Portugal. Raflatac papers were chosen for this security end-use as they were the only ones to ensure an optimal result with the heat-sensitive ink. When the label is touched, the surface turns white as a sign of authenticity. An ultraviolet ink has also been used.

### Raflatac product

|                  |  |
|------------------|--|
| Face material:   | Vellum                                 |
