

## Keep on closing with RC 12

UPM Raflatac's new improved RC 12 adhesive moves with the latest market needs for resealable wet wipes pouches.

A new, more durable formula gives RC 12 a higher level of adhesion after repeated use and improved resistance to oils and non-polar liquids. It also opens softly and quietly to make resealable pouches discreet and pleasing to use.

RC 12 is a competitive solution for open-closure labelling across a fast expanding range of wet wipes applications in personal and home care, from baby and cosmetic to car and household wipes.

- Chemically more resistant
- Longer lasting performance
- Softer, quieter opening

# UPM RAFLATAC TECHNICAL INFORMATION

6/2006 ENG 120

ADHESIVE	RC 12
	RC12 (sales code)
Type	UV acrylic adhesive
Composition	Acrylic radiation-cured hot melt
Use	Filmic open-closure labelling on wet wipes packages

## Typical technical values

Tack min	5	N	FTM 9
Peel min	3.0	N/25mm	FTM 2 90°
Peel max	6.0	N/25mm	FTM 2 90°
Labelling temperature min	10	°C	
Service temperature min	5	°C	
Service temperature max	80	°C	

Shelf life From the date of manufacture: 2 years at +20°C and RH 50%
