## RC12 adhesive

### Repeated open-closure capabilities for wet wipe packages

UPM Raflatac's RC12 adhesive extends convenient, reseal qualities for a variety of wet wipe packages.

This removable adhesive helps sustain product integrity by providing a seal that prevents drying yet opens softly and quietly to ensure subtlety. RC12 performs at a high level of adhesion, upholding resistance to chemicals, oils and non-polar liquids while maintaining repeated open-closure capabilities.

RC12 is a competitive solution for open-closure labeling across a rapidly expanding range of wet wipe applications in personal and home care – from baby and cosmetic to car and household wipes.

- Chemically more resistant
- Long-lasting performance with repeated use
- Soft, quiet opening

UPM Raflatac. Pro Label.

# UPM RAFLATAC TECHNICAL INFORMATION

03/2009 AM RC12

ADHESIVE	RC12
Description	UV acrylic adhesive.
Use	Open-closure labels for wet wipe packages.
Typical tack	6 N                      FTM 9
Peel min	4.0 N/25mm    FTM 2 90°
Peel max	7.0 N/25mm    FTM 2 90°
Labeling temperature min	50 °F
Service temperature range	32 °F ... 248 °F
Shelf life	Labelstock with RC12 adhesive can be stored for 2 years from the date of manufacture if stored at room temperature (68 °F) and RH 50% in original packaging and protected from light.
Warranty	Our recommendations are based on our most current knowledge and experience. As our products are used in conditions beyond our control, we cannot take responsibility for any damage caused through their use. This technical sheet replaces all previous versions. All information is subject to change without notice.
